FULLSTACK DEVELOPER

Personal trainer turned software engineer with a passion for learning best practices when building full-stack applications through MERN stack or Django/React/PostgreSQL. Previously full-time fitness professional, hitting sales quota and above for 10 months straight.

TECHNICAL & INTERPERSONAL SKILLS

Languages: Python, JS, HTML, CSS, Markdown

Libraries and Frameworks: React, Express.js, EJS, Node.js, Django, jQuery, Tailwind CSS

Databases and other: PostgreSQL, MongoDB, Mongoose, RESTful Routing, JSON API

Skills: Version control with Git, Clear verbal and written communication skills, motivated to work as part of a team or as an individual, strong customer service.

TECHNICAL PROJECTS

[Neopets](#) | [Source Code](#) | **Python** | **Django** | **PostgreSQL** | **HTML** | **CSS**

Neopets mock-up where you can relive your childhood days of playing on the iconic original Neopets site.

- Built a full CRUD application over instances of models
- Implemented user authentication and authorization through Django framework
- Utilized One:Many and Many:Many models to build relations between instances within a user's collection

[Vibe Voyage](#) | [Source Code](#) | **JavaScript** | **React** | **JSX** | **CSS**

A health awareness app for users to practice mindfulness and keep track of their good habit building.

- Connected front-end React app to back-end express for proper routes and connection to JSON databases
- Utilized React state and express backend to achieve full CRUD over the notes that users can create
- Led release management in a group-project and participating on each part of the front and back end

[Comic Characters](#) | [Source Code](#) | **JavaScript** | **HTML** | **CSS** | **jQuery**

Search any comic book hero or villain and see their stats, identity, and alliances.

- Connected to Superhero API to allow users to have a large base of characters to pull from
- Styled the frontend to display information in an organized and visually appealing manner

EXPERIENCE

Equinox

New York, NY

Tier 3 Personal Trainer

10/2021 - 08/2022

- Acquired new clients and retained existing clientele while continuing maintenance of exercise programming and lifestyle habit building for over 10+ clients per week as a full-time employee
- Surpassed manager expectations by acquiring full-time status of over 40 client sessions seen per two week period in a matter of 1.5 months, when average seen is 3-6 months
- Mentored a new-hire employee for proper program administration and upselling techniques
- Yielded desired results of clients through carefully devised exercise selection and maintaining client accountability through building lasting connections and comradery in their goals
- Qualified Tier 3 screening as a new-hire, which normally requires knowledge of 130+ hours Tier 2 education

Tier 2 Personal Trainer

10/2021

- Provided leadership by assisting with proper technique of exercise and communicating effective exercise techniques

Professional Physical Therapy

New York, NY

Physical Therapist Assistant Intern

02/2021 - 05/2021

- Collaborated with a team of physical therapists to provide quality care to patients in their rehabilitation process.

EDUCATION

General Assembly

Remote

12-week coding bootcamp that focuses in-depth education on frontend, backend, and full-stack application building using technology such as JavaScript, React, and Python.

08/2022-10/2022

Queens College

New York, NY

Bachelor of Science in Nutrition and Exercise Science

09/2016-05/2021
